Generac® Power Systems: Our Portables Can Work For You

WAUKESHA, Wis. – September 15, 2009 – In response to the recent recall of Homelight, Husky and Black Max portable generators last month by the [U.S. Consumer Product Commission](#), Generac Power Systems would like to announce that none of its portable generators were affected by the recall and are currently available for sale. Generac has more than 50 years experience, focused exclusively on designing and manufacturing high quality power generators, and continues to build products meeting its stringent performance requirements in its Wisconsin-based factories and at select global partners.

Generac currently offers four different lines of portable generators ideal for home use, tailgating or camping, construction or outdoor events. To find a sales and service dealer in your area please click [here](#) or visit www.generac.com/Portables/DealerLocator/.

Generac was founded in 1959 with the introduction of its first portable generator, launched the first gaseous-fueled automatic home standby system in 1989 and has been the leading brand ever since. Generac is a proud supporter of the [Home Safety Council](#) and has earned the [Good Housekeeping Seal](#) after evaluation by the *Good Housekeeping* Research Institute. For more information on Generac residential and commercial products, visit www.Generac.com or call 888-GENERAC.

About Generac Power Systems, Inc.

Since 1959, Generac Power Systems, Inc., has been a leading, innovative manufacturer and marketer of portable and standby generators, automatic transfer switches, modular paralleling systems, and small engines for recreational vehicle, residential, and commercial applications. Generac's power systems range in output from 2 to 9,000 kilowatts. Generac is a proud supporter of the Home Safety Council and earned the Good Housekeeping Seal in 2009. For more information on Generac and its extensive line of both portable and automatic generators, visit www.GENERAC.com.
