Generac® Announces New Industrial Dealer in Pacific Northwest *D Square Energy Systems Achieves Elite Status and Expands Reach across Northwest*

Waukesha, Wis. – November 23, 2009 – [Generac® Power Systems, Inc.](#), the leader in standby power generation, is pleased to announce that [D Square Energy Systems](#), North Bend, Wash., has signed on as a Generac Industrial Power dealer, expanding the reach of Generac in the Pacific Northwest.

As a member of the Generac Industrial Dealer Network, D Square Energy Systems is qualified to provide sales and service for the full Generac product line. This means the D Square Energy Systems staff has completed the required level of sales and service training and factory certification on all Generac products 9,000 kilowatts (kW) and below.

D Square Energy Systems President Don Dunavant, who has guided the organization's growth and expansion for nearly 20 years, stated, "We are very pleased to be expanding our market reach throughout the Northwest with Generac. As the area's only single-source industrial dealer with offices in Washington and Oregon, we are well-positioned to offer electrical engineers, contractors and residential homeowners access to the most experienced and fully-certified staff of service technicians trained in all aspects of installing, repairing and maintaining generators."

As one of the largest independent dealers of standby power generators in the Pacific Northwest, D Square Energy Systems has been providing backup generators, affordable sales and reliable service for more than 20 years. "Comprised of factory-trained-and-certified

(more)

technicians with the expertise to install, service and repair a wide range of residential and commercial generators, D Square Energy Systems can handle any job, large or small,” adds Dunavant.

D Square Energy Systems has been a Generac dealer of residential and commercial products for 20 years, elevating it to Elite status, and has expanded its services to offer Generac Industrial Power products, including Modular Power Systems (MPS), Gemini® and Bi-Fuel™ generators.

“We’re very pleased to continue our relationship with D Square Energy Systems as we’re sure its reputation for excellent sales and service will continue to excel with our Industrial Product Line. D Square has the engineering expertise on staff to allow Generac Industrial Power to expand its presence and supply our quality and reliable products to the Pacific Northwest,” says Paul Bowers, vice president, industrial sales, Generac.

In the world of standby power, Generac Power Systems continues to lead the way with an array of standby generators that provide power generation solutions for any scenario. Generac generators operate on diesel, natural gas or liquid propane vapor (LPV). The company also offers Bi-Fuel (diesel and natural gas) generators and paralleled systems up to 9,000 kW. As Generac’s sole focus is engineering and manufacturing quality generators, the company is at the forefront in offering superior solutions for demanding power applications.
